Parenting Arrangements

A key concern for most people when they separate is the living arrangements of the children post separation. It is important to discuss, as soon as possible, after separation what will happen in relation to the children and their time with each parent.

Property Settlement

Going through a separation is an emotionally difficult time. Added to this is the financial stress of dividing your assets. It is important that you receive advice about what is an appropriate division of assets based upon your circumstances.

Divorce

Obtaining a Divorce is often the final step in dealing with a property division and can be done by consent or by one party alone.

Child Support

Following separation, parties are often confused about their obligation to pay or their right to receive child support. Gaining an understanding of your child support liability or rights is imperative in planning your future.
